

## Term Two in the Junior School and the beginning of 2010.

The second term in the Junior School as always is jam packed with many events. There are numerous assemblies such as; class assemblies, art, drama, science, computer, dancing, yoga, Sinhala, oriental dance, story telling and singing.

Along with this there is the excitement of library week, the digital art exhibition and our junior school production of Olivia.

### THE JUNIOR SCHOOL

As always the digital art exhibition is a magnificent treat for both young and old. Its vibrant display of colour and creativity speaks for itself. See Mr Mendis for details.

Library weeks will see the whole school participating in year group assemblies, quizzes and a visit from a story teller. pupils will be asked to decorate their classrooms and get creative, with special presentations for the winners. this will then be followed by a special DVD treat in the auditorium.

Another Junior School production to be enjoyed by all. Olivia, the story of a young orphan girl, who ends up living with Miss Murdstone and many other cheeky orphans. She has to cope with the struggles of life. Does she survive? Come and enjoy the show with its amazing singing and dancing and excellent stage direction. **MISS IT and MISS OUT!!!**
