

# CIS CLUBS AND SOCIETIES FAIR

On 31<sup>st</sup> August, we held a well-attended and lively event to introduce the Clubs and Societies we have on offer this year. Each society had a stall run by the student President and Secretary and there was a lot on offer to keep us all entertained, including science experiments, live music, board games and artistic face painting, which we enjoyed while eating the delicious cookies and candy-floss provided by the Cookery Society. It was a lovely afternoon and we do hope that our students will make the most of the opportunities on offer this year and sign up to join as many Clubs and Societies as possible.
