

JUNIOR SCHOOL

NEWSLETTER

Students of Year 5 completed a hands-on activity on rock pools and coral reefs. Rock pools and coral reefs are very beautiful and diverse ecosystems. They are important in the growth, development and reproduction of many marine species.

[Watch Year 5 students make rockpools here....](#)

Year 5 rock in Mathematics

Students of Year 5 enjoy the subject as an interesting game. They are highly enthusiastic about learning mathematical concepts. Here is some of the work they have eagerly done.

Year 5-C
Making awesome models using 3D shapes.

Year 5-I
Students learnt to use graph paper and it was a novelty. They enjoyed how to read the information given in a **Bar Chart/Line Graph**.

Year 5 -S
They thoroughly enjoyed observing 3D shapes in the environment.

Year 6 - Maths - Compass Drawing

Drawing geometric patterns with a compass.

“Follow your own inner compass”
